

SUPPORTING CHILDREN WITH ATTACHMENT DIFFICULTIES

Using attachment theory to guide understanding and interventions with children and young people who have experienced inadequate or disruptive parenting

DR KIM GOLDING

Consultant Clinical Psychologist

Monday 26th April 2010

at

at Worcestershire Federation of Young Farmers' Clubs, Shires Farm, Hawford, Worcester WR3 7SG (please note lunch is not provided)
10.00AM—4.00PM

Following the extremely successful seminars held previously the WSCB has invited Dr Kim Golding to repeat her presentation on the application of Attachment Theory in supporting vulnerable children. The event is designed to build upon the issues addressed in her related seminar:

"The impact of adverse environments on children's development"

to be held on the 22nd February 2010. However it is not essential to attend that event if you are familiar with/have knowledge of the issues involved.

Morning Session:

This session will provide an overview of attachment theory

- Why are attachments important
- What is secure care-giving
- Patterns of attachment and related behaviours
- Recognising attachment difficulty

Afternoon Session:

This session will explore ways of intervening when children are experiencing attachment difficulty.

- Providing environments which facilitate healthy attachment development
- Working with carers
- Working with children
