Management of Allegations against People who work with Children and Young People

ARE YOUR PROCEDURES UP TO DATE?

Due to demand WSCB will be running this workshop again during 2010.

The workshop focuses on the guidance contained in Working Together to Safeguard Children 2006 for managing allegations against people who work with children and young people, including volunteers. They are aimed at staff with strategic and/or operational responsibility, including representatives from HR Departments, and provide the opportunity to consider the steps that may be necessary to ensure agencies have effective and safe procedures in operation. The workshop will also provide an overview of the Safeguarding Vulnerable Groups Act 2006 and the role of the Independent Safeguarding Authority, which comes into operation in October 2008.
